About Intralinks

Intralinks is the pioneer of secure file sharing and virtual data room (VDR) technology. Our solutions have facilitated strategic initiatives such as mergers and acquisitions, capital raising and investor reporting.

Independently verified and certified

More than 450 independent, client-led security audits and penetration tests of our data centers have been conducted since 2014. Numerous certifications are available to support regulatory and risk assessments.

Highest standards of data privacy

We ensure our clients have the solutions, processes, controls and reporting required to safeguard their data while exceeding regulations and reducing risk. Intralinks is the first VDR provider to receive ISO 27701 certification for data privacy.

Bank-grade security

We incorporate multiple layers of protection at the data center, employee, product and individual file/document levels. Rely on two-factor authentication, SSO, DDoS protection and more.

Financial and operational security

Intralinks is backed by parent company SS&C, a USD 6 billion revenue company with a 30+ year history in fintech.
